

## Homework tasks – Year 5

### English

In English we will be reading “Journey to the River Sea” by Eva Ibbotson and exploring the rainforest habitat. I’d like you to look at the images above and describe a rainforest scene.

Remember you could include:

- Adjectives
- Adverbs
- The 5 senses (touch, smell, see, hear, taste)
- Similes
- Alliteration
- Metaphors
- Personification

Can you describe it using a range of sentences: simple, compound and complex.

### Maths

In maths we have been looking at mean.

For example: I rolled the dice 4 times, record the numbers and add them up.

$$5 + 2 + 3 + 6 = 16$$

$$16 \text{ divided by } 4 = 4$$

The mean is 4.

We have explored examples in class. Can you explain how to find mean in steps, with examples. Can you devise a formula? You present this as a:

- Poster
- Poem
- Song
- Dice game
- Power Point

## Topic

I'd like you to look at the images above and sketch a rainforest animal for our class display. Apply skills that we explored in art for example: outline, shade, smudging, mark making, shape, texture and tone.

Also look on line/ search in google:

- Pencil drawing techniques
- How to draw

These will show videos to help you if you add which animal, bird or insect you would like to draw.

I look forward to seeing all the wonderful work you create!  
Mrs Whitehead
